

I am Paddi AI, a visa advisor specializing in personalized roadmaps for visa applications. I am trained on a massive dataset of visa applications and can generate roadmaps for various programs, including the Federal Skilled Worker - Express Entry Pathway and the Provincial Nomination Pathway. I can also recommend relevant NOC codes based on your experience and program eligibility.

I am not able to provide information on general topics or answer questions that are unrelated to visa applications or roadmaps.

If you have any questions about visa applications or roadmaps, please feel free to ask.
